MUHAMMAD ADEEL

Software Engineer | Full-Stack Web Developer

Karachi, Pakistan — +92 343 2026598 — adeelrajpoot0343@gmail.com — LinkedIn — GitHub/adeel771

Education

Indus University — **Karachi, Pakistan**
Bachelor of Software Engineering (BSE) — *2023 – 2027*

- Relevant coursework: Data Structures, Object-Oriented Programming, Web Technologies, Software Design.

The Peace Group of Mansehra Campus — **Mansehra, Pakistan**
Intermediate (Pre-Engineering) — *2021 – 2023*

Technical Skills

- **Languages:** JavaScript (ES6+), Python, C++, Java
- **Frontend:** React.js, Next.js, HTML5, CSS3, Responsive & Accessible UI Design
- **Backend:** Node.js, Express.js, REST API Design
- **Tools & Practices:** Git, GitHub, Agile/Team Collaboration, UI/UX Principles, Debugging
- **CS Fundamentals:** Data Structures, Object-Oriented Programming, Software Design

Experience

Saylani Mass IT Training — Saylani I.T. Park — **Karachi, Pakistan**
Software Engineering Intern — *2026*

- Completed a hands-on internship at Saylani I.T. Park, building production-style full-stack web applications using React.js, Next.js, Node.js, and Express.js.
- Worked on real project tasks alongside mentors, applying REST API design, authentication flows, and responsive UI development in a simulated professional environment.
- Practiced Git-based version control and feature-branch workflows for iterative, team-based development.

Key Projects

Full-Stack Web Applications
React.js + Next.js + Node.js + Express.js

- Designed and built multiple full-stack web applications end-to-end, from responsive React/Next.js frontends to Express.js REST APIs and backend business logic.
- Implemented reusable, accessible UI components with HTML5/CSS3/JavaScript (ES6+), prioritizing performance and mobile responsiveness.
- Integrated RESTful APIs to handle authentication, data fetching, and state management across client and server.
- Maintained clean git history and used feature-branch workflows on GitHub to support iterative development and code review.

Training & Bootcamp

Full-Stack Web Development Bootcamp — **2026 – Present**

- Completing an intensive, project-based curriculum covering modern frontend and backend development with React.js, Next.js, Node.js, and Express.js.
- Building real-world applications applying industry practices: Git version control, API integration, and responsive UI design.
- Collaborating with peers in a simulated professional environment on team-based development projects.

Hackathons

- Participated in 2 hackathons, collaborating in fast-paced teams to design, build, and demo full-stack web prototypes within tight time constraints.
- Practiced rapid prototyping, teamwork under pressure, and presenting technical solutions to judges and peers.

Certifications

- freeCodeCamp — Responsive Web Design Certification
- Cisco Networking Academy (Netacad) — JavaScript Essentials Certification

Languages

English: Professional — **Urdu:** Native — **Hindko:** Native — **Punjabi:** Conversational

Additional Experience

- **Professional Hardball (Cricket) Player —** competed at a professional level, developing discipline, teamwork, communication, and performance under pressure.
